

FIX Drip Pipe Clipper

makes drip irrigation easy

► Vineyards, Orchards and Horticulture, Nurseries:

With the new **FIX Drip Pipe Clipper** the installation of your drip irrigation system is more cost-effective and time-saving!

No. 7305 **Model M** for pipe 13 - 16 mm

No. 7307 **Model L** for pipe 17 - 20 mm

- Use of steel staples (galvanised) instead of plastic clips
- 2 - 3 times faster attachment of the drip tubes to the wire than with the plastic clips
- Clipper pays off using about 1 hectare of cultivated area. Attachment with Clipper and staples is even cheaper than the variant with clips

- The "legs" of the staples serve as a "dripper" (same as plastic clips)
- 10.000 staples per hectare required
- Staples are not damaged by harvester machines
- Environmentally friendly
- Durability up to 20 years
